This listing of claims will replace all prior versions and listings of claims in the application:

Listing of the Claims:

Claim 1 (currently amended): An antisense compound ~~8~~ 16 to 30 nucleobases in length targeted to a coding region a nucleic acid molecule encoding human TRADD (SEQ ID NO: 1), wherein said antisense compound specifically inhibits the expression of human TRADD by at least 10% in T-24 cells.

Claim 2 (original): The compound of claim 1 which is an antisense oligonucleotide.

Claims 3-4 (previously canceled).

Claim 5 (original): The antisense compound of claim 2 wherein the antisense oligonucleotide comprises at least one modified internucleoside linkage.

Claim 6 (original): The antisense compound of claim 5 wherein the modified internucleoside linkage is a phosphorothioate linkage.

Claim 7 (original): The antisense compound of claim 2 wherein the antisense oligonucleotide comprises at least one modified sugar moiety.

Claim 8 (original): The antisense compound of claim 7 wherein the modified sugar moiety is a 2'-o-methoxyethyl sugar moiety.
